Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Algebra for High Schools and Colleges Part II. of this work is a revision of the author s Lessons on Higher Algebra prepared several years ago in view of the need of a suitable text-book for a brief course in algebra required in the freshman year at Wellesley College. In developing a short course in higher algebra, it has seemed desirable and has been found possible to give unity to the work by proposing one general problem, - the determination of the roots of higher numerical equations. Most of the matter of Part II. will be found to bear on this problem. It is the author s experience that students of the mathematics usually offered in college need to have an elementary algebra at hand for reference. Part I. has been prepared to meet this need. It is also believed that for the purposes of high schools and preparatory schools, Part I. will prove a helpful supplement to the ordinary algebra text-books, since it emphasizes certain important aspects of the subject which at present are being more or less neglected. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
