Dover Publications Inc., United States, 2009. Paperback. Book Condition: New. Dover.. 213 x 135 mm. Language: English . Brand New Book. This volume features a complete set of problems, hints, and solutions based on Stanford University s well-known competitive examination in mathematics. It offers high school and college students an excellent mathematics workbook of rigorousproblems that will assistin developing and cultivating their logic and probability skills.These 20 sets of intriguing problems test originality and insight rather than routine competence. They involve theorizing and verifying mathematical facts; examining the results of general statements; discovering that highly plausible conjectures can be incorrect; solving sequences of subproblems to reveal theory construction; and recognizing red herrings, in which obvious relationships among the data prove irrelevant to solutions. Hints for each problem appear in a separate section, and a final section features solutions that outline the appropriate procedures.Ideal for teachers seeking challenging practice math problems for their gifted students, this book will also help students prepare for mathematics, science, and engineering programs. Mathematics buffs of all ages will also find it a source of captivating challenges.
