Reviews

It in one of the most popular book. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Concise and lucid writing made this book in its first edition the leading research methods text written specifically for counselors. The text introduces reader to the basics of how to do research from formulating a problem, doing a literature review, selecting a design, collecting and analyzing data, through reporting results. It also provides readers with the information they need to become intelligent consumers of published research.Covering a broad range of quantitative, qualitative, and mixed methods designs, as well as action research and program evaluation, the text presents the most common types of research used in the field of counseling. From reviews of the text: The content is strong and clearly explained. . . . This is the best [counseling research text] I have seen. Monica Osburn, UNC-Pembroke and Webster The majority of my students report it is easy to follow and understand, even those with limited research knowledge. . . . So often I find counseling students viewing research methods courses as courses they must just get through and not...
